Case Coordination Units (CCUs) serve as central access points for older people who have intensive long term care needs. If an older person has a functional impairment(s) and needs housekeeping assistance, home-delivered meals, and/or personal care, he or she could contact the nearest CCU. It may be located in a senior center or other social service agency. A case manager assesses the person's needs, determines eligibility for various programs, develops a plan of care and proceeds to arrange for services. There are 65 CCU locations in Illinois, serving nearly 40,673 clients each month.
